

Launching Aximmetry Broadcast DE

We are delighted to announce the launch of our new Aximmetry Broadcast DE edition with UE4 integration, capable of receiving information from professional camera tracking systems and provides AR support.

To celebrate the launch of our new Broadcast DE (dual engine) software we invite all our customers to take part in our **promotional upgrade program**.

It is a one-off opportunity to **purchase our most premium edition for a fraction of the price** and also to **restart your 1-year warranty and free software update** period with Aximmetry.

Customers can upgrade to Broadcast DE at the following conditions:

You purchased	When	Price of the upgrade to Broadcast DE
Broadcast SE	Since 4 May 2020	Free
Professional DE	Since 4 May 2020	EUR 3000 USD 3500
Broadcast SE	Before 4 May 2020	EUR 850* USD 1020*
Professional SE	Before 4 May 2020	EUR 3350** USD 3920**

** Price of 1 year extended warranty and free software updates*

*** Price of upgrade and 1-year extended warranty and free software updates*

Our upgrade program is for a **limited period only, ending on 30 September 2020**.

To order your upgrade please email sales@aximmetry.com

About Aximmetry Broadcast DE

The new Broadcast DE contains both our own Aximmetry engine and UE4.

In all our Aximmetry DE (dual engine) software the UE4 rendering engine is embedded into Aximmetry's own user interface therefore those who create graphics content in Unreal Editor, have the opportunity to open and run Unreal Engine projects with Aximmetry DE.
